Crow Museum of Asian Art AIDS Memorial Quilt Installation

Since 1987, the AIDS Memorial Quilt celebrates and memorializes the lives of those who have passed away from HIV/AIDS complications. The Quilt remains the largest community art project in the world. It has grown to more than 49,000 panels on 5,956 blocks. Each block is 12 x 12 feet and made up of 8 separate panels. After decades of stewardship from the NAMES Project Foundation, the Quilt is now cared for by the National AIDS Memorial (NAM).

The Crow Museum of Asian Art and The University of Texas at Dallas School of Arts, Technology, and Emerging Communication will display three quilts from the collection of the AIDS Memorial Quilt. Two of the quilts include panels memorializing those in the Asian communities who have passed from HIV/AIDS complications. An additional quilt that includes a panel from local Dallas citizen and activist Duane Kearns Puryear will also be on view.

These three quilts will be on display in Gallery III of the Crow Museum of Asian Art from June 18 through June 30, 2021.

AIDS Quilt Touch Media System Installation

The AIDS Quilt Touch Media System (AQT) is a research project of the Public Interactives Research Lab at the School of Arts, Technology and Emerging Communication at UT Dallas and the National AIDS Memorial. As the AIDS Memorial Quilt would require more than 18 football fields of space if it were to be physically displayed in its entirety, the AQT is the only way to be able to see and experience the entire Quilt at once. AQT permits users to zoom in and out, from a bird's-eye view of the entire quilt to a larger-than-life size examination of

individual memorials. See and explore the Quilt and search for names and blocks using AQT technology at <https://www.aidsmemorial.org/interactive-aids-quilt>.

The AQT will be an interactive installation in Gallery III of the Crow Museum of Asian Art from June 18 through June 30, 2021.

Program Title and Date: Lunch & Learn: The History of Juneteenth | Friday, June 18, 2021 at 12:00 p.m. CT via Zoom

Description: On June 19, 1865 in Galveston, Texas, Major General Gordon Granger of the Union Army issued a statement that all slaves in Texas were free. The announcement came almost three years after Abraham Lincoln's Emancipation Proclamation. Though the event was followed by confusion, delay, and continued terror for many enslaved Texans, Juneteenth is now the most popular annual celebration of emancipation from slavery in the United States. Join the Dallas Holocaust and Human Rights Museum and Dr. George Keaton, Jr., Founder and Executive Director of Remembering Black Dallas, for a discussion of the history of Juneteenth, its particular significance in Texas, and how the holiday has evolved over the last 150 years.

I always say I'm a poet first, and these songs are no exception, being excessively wordy and consciously melodramatic." [Follow our YouTube channel](#)
